(the "Company" or "LXI REIT")

£3.8M ACQUISITION OF A LONG-LET SUPPORTED LIVING PORTFOLIO

The Board of LXI REIT plc (ticker: LXI) is pleased to announce that the Company has completed the acquisition of the freehold interest in a portfolio of regulated long-let supported living properties located in Yorkshire (the "Portfolio"). The purchase price for the Portfolio is £3.8 million, reflecting a net initial yield of 6.0% (net of acquisition costs to the Company).

Each property is immediately income producing and has been let on a new 25 year lease, with no tenant break, to a specialist Registered Provider of social housing. The Registered Provider is regulated by the Homes and Communities Agency and receives its funding for the rent payments directly from the relevant local authority.

Each lease is subject to annual upward-only rent reviews index-linked to the Consumer Price Index (uncapped) and the Registered Provider is responsible for the costs of repair, maintenance, insurance and outgoings.

The properties in the Portfolio comprise specialist, high quality supported living homes for individuals with physical and/or mental disabilities or other care needs.

The UK Government recognises the importance of supported living accommodation, which provides a much needed privately funded supply of specialist accommodation for vulnerable adults and reduces the significant pressure on already stretched public services, social care and health budgets.

The acquisition has been funded from equity resources, with senior debt finance expected to be introduced in the near term.

The Company has now also completed on the acquisition of the Priory Care Home in Leeds, the exchange of which was announced on 5 June.

Simon Lee, Partner of LXI REIT Advisors Limited, commented:

"This supported living portfolio provides the Company with an attractive 6.0% net initial yield underpinned by unbroken 25 year, index-linked leases to a Registered Provider of social housing, and offers vulnerable adults high quality, long-term, safe and attractive community living environments. The acquisition, our eleventh since IPO, further underlines our approach to building a diversified, secure and index-linked portfolio, encompassing a very wide range of property sub-sectors, tenants and locations."
